Nagoya Heart Center

Yoshinori Tsubakimoto

Higashi Takarazuka Satoh Hospital

Course Objectives

Thank you for reading this article again this year.

I am Yusuke Miyashita of Nagano Red Cross Hospital/Shinshu University Hospital, and I have been appointed as the Representative Course Director of CCT2025 Peripheral.

The COVID19 infection and the long-lasting recession in Japan continue to have an unfavorable impact on the field of cardiovascular intervention. However, under these unfavorable circumstances, CCT peripheral would like to continue to be a stage that provides dreams and strength to young and motivated interventionists. If you look at the executive committee and course directors, I am confident that you will understand that CCT2025 Peripheral will be a place where the highest quality peripheral intervention is provided in Japan.

The history of CCT is the history of highest-quality intervention in Japan. We hope that you will come to Kobe to share and be impressed by the techniques supported by history.

Yusuke Miyashita, M.D.

CCT2025 Representative Peripheral Course Director

EVT Live Case Transmissions

[Live Transmission Sites]

Thursday, October 23
