SPECIAL COLLECTIONS

NEW Neuroimaging of Epilepsy

Dr. Lucien Levy, an *AJNR* Senior Editor, completed this wonderful collection of articles shortly before passing away. Always patient and meticulous, he included over 100 articles previously published in *AJNR*. This is evidence not only of the topic's relevance, but also of the many contributions of ASNR members to the literature and of *AJNR* being an important journal in the field of epilepsy research.

Welcome Message

Dear Colleagues:

I am writing this letter to ask for your support and participation in the upcoming XXI Symposium Neuroradiologicum–The World Congress of Neuroradiology in 2018. With great honor, it is my pleasure to announce to you the XXI Symposium Neuroradiologicum will be held in our vibrant city of Taipei in March 2018.

I would like to convey my warmest greetings to invite all of our friends of the neuroradiological societies throughout the world to Taipei. The XXI Symposium Neuroradiologicum in Taipei is not only evidence for Taiwan neuroradiological involvement but also an important step forward for neuroradiological practitioners of all Asian countries. We hope to take this opportunity to foster a long and steady science platform for years to come. And of course, your participation is a vital key to the success of this congress; we believe we will make XXI Symposium Neuroradiologicum an interesting, informative, and enjoyable journey that we all shall remember.

Sincerely Yours,

Symposium President, Professor Wan-Yuo GUO, M.D., Ph.D.

Symposium Vice-Presidents
Professor Yukunori KOROGI, M.D., Ph.D. (Japan)
Professor Sang-Joon KIM, M.D. (Korea)
Professor Sandy CY CHEN, M.D. (Taiwan)
Professor Ho-Fai WONG, M.D. (Taiwan)
